La proposta dell'Alleanza Italiana per lo Sviluppo Sostenibile alle Regioni

AZIONE 1

Affiancamento delle Regioni per predisporre una "Regional Voluntary Review" che fotografi la situazione regionale rispetto all'Agenda 2030 e sia la base di partenza per la definizione delle Strategie Regionali.

Con la creazione di un database che contenga gli indicatori statistici relativi ai 169 target e ai 17 SDGs, le Regioni possono conoscere il proprio posizionamento rispetto alla media italiana e alle altre regioni, e monitorarlo nel corso degli anni.

ASviS offre il sostegno tecnico per la realizzazione della Review e il disegno di una pubblicazione sul posizionamento della Regione rispetto agli SDGs, da realizzare sulla falsariga di quanto fatto per la Lombardia da Polis-Lombardia.

La proposta dell'Alleanza Italiana per lo Sviluppo Sostenibile alle Regioni

AZIONE 2

Sostegno nella creazione di una Strategia Regionale di Sviluppo Sostenibile e nella individuazione di Target specifici, alla luce delle competenze delle regioni. ASviS può contribuire a valutare la coerenza delle politiche, sia in atto sia previste per il futuro, e a definire una governane che assicuri una sistematica valutazione ex-ante dei nuovi interventi rispetto agli SDGs e ai singoli target.

La creazione delle Strategie Regionali implica la fissazione di target che le Regioni vogliono conseguire - scelta eminentemente politica per la uale ASviS mantiene la propria veste neutrale e apartitica, fornendo consulenze tecniche per l'individuazione di target realistici e in linea con il conseguimento degli SDGs.

La proposta dell'Alleanza Italiana per lo Sviluppo Sostenibile alle Regioni

AZIONE 3

ASviS, attraverso l'esperienza maturata in ambito della formazione sia in forma residenziale (aula) che remota (webinar, e-learning), è in grado **affiancare le Regioni per definire i percorsi formativi** idonei per supportare l'acquisizione e sviluppo di competenze nel campo dell'analisi e delle politiche di sviluppo sostenibile, con particolare attenzione alla interdisciplinarietà di tale concetto e alle modalità necessarie per calarlo nel territorio di riferimento.

La proposta dell'Alleanza Italiana per lo Sviluppo Sostenibile alle Regioni

AZIONE 4

Coinvolgimento degli stakeholder per l'elaborazione e presentazione della *Regional Voluntary Review* e per la condivisione di priorità e target.

Il successo di ogni Regione nel conseguimento degli SDGs dipenderà anche dal grado di coinvolgimento dei sistemi produttivi e sociali regionali, ognuno dei quali dotato di particolarità ed esigenze proprie.

ASviS può affiancare le Regioni nell'analisi di queste realtà e fornire gli strumenti e le *best practice* necessarie alla creazione di una virtuosa collaborazione tra attori pubblici e privati.

Editoriale - il nostro impegno per un'Italia sostenibile e più giusta

Si dice spesso che le crisi vanno trasformate in opportunità. Può sembrare una banalità, ma questo è esattamente quello che i governi delle Nazioni Unite hanno deciso di fare quando, a settembre del 2015, hanno riconosciuto l'irrisolvibilità dell'attuale modello di sviluppo e si sono impegnati a sostituirlo con uno in grado di assicurare un
